

B

GROUNDWATER USE

Reporting Period

From 01/01/2018 To 12/31/2018

Total Annual Groundwater Extraction (AF)

Method used to determine extraction (if available):

	Volume (AF)	Explanation	Uncertainty
Meters		Production by Non-Overlying Producers on Exhibit 3 of the Judgment plus Federal, State, Supporting Landowners and other metered Parties (Appendices B-1 and B-3 of 2018 Annual Report)	Low
Electrical records			
Land use			
Groundwater model			
Reported by pumper		Production by Overlying Producers on Exhibit 4 of Judgment (Appendix B-2 of 2018 Annual Report)	Medium
Other method		Estimated production by Small Pumper Class list as provided in the Judgment plus additional identified Small Pumpers based on an average of 1.2 AFY	High

Groundwater Extraction by water use sector (if available):

Sector	Volume (AF)	Explanation	Uncertainty
Urban			
Large Landscape			
Commercial			
Industrial			
Residential			
Agricultural			
Managed Wetlands			
Managed Recharge			
Other sector			

C SURFACE WATER USE

Reporting Period

From 01/01/2018 To 12/31/2018

Surface Water Supply (AF)

Method used to determine

Reported by SWP water importers and wastewater treatment agencies (Appendices C and J of 2018 Annual Report)

Uncertainty

Low

Water available for recharge or in-lieu use by source type (if available):

	Volume (AF)	Explanation	Uncertainty
Local Surface Deliveries			
Local Imported Deliveries			
Colorado River Deliveries			
CVP Base and Project Deliveries			
Other Federal Deliveries			
State Water Project Deliveries		SWP water imported by AVEK and Palmdale Water District (Appendix C of 2018 Annual Report)	Low
Recycled Water		Use of recycled water from Lancaster and Palmdale WRPs and Edwards AFB-Main Plant (Appendix J of 2018 Annual Report)	Low
Desalination Water			
Other		Recovered water from groundwater banking	Low

D TOTAL WATER USE

Reporting Period

From 01/01/2018 To 12/31/2018

Total Water Use (AF)

Method used to determine

Total includes groundwater production, water imported into basin, recycled water use, and recovered water from groundwater banking. Note that 16,328.80 AF of the SWP water imported into the basin was spread for water banking.

Uncertainty

Low

Total water Use by water use sector (if available)

Volume (AF)
Urban
Large Landscape
Commercial
Industrial
Residential
Agricultural
Managed Wetlands
Managed Recharge
Other sector

Water use met by source type

Type	Volume (AF)
Groundwater	
Surface water	
Recycled or reused water	
Other	

E

CHANGE IN GW STORAGE

Reporting Period

From 01/01/2018 To 12/31/2018

Change in storage (AF)

Method used to determine

See section 3.5.3 of 2018 Annual Report

Uncertainty

High

F REQUIRED DOCUMENTS

Reporting Period

From 01/01/2018 To 12/31/2018

Please submit an electronic (PDF preferred) copy of your annual report.
